PROFILE

Full Stack Developer with strong expertise in backend development using PHP and MySQL, and modern frontend development using Vue.js.Experienced in building scalable, secure, and high-performance web applications following OOP principles and MVC architecture.Skilled in RESTful API development, authentication & authorization systems, database design and optimization, and clean code practices.Capable of handling the full software development lifecycle from requirement analysis to deployment

PROFESSIONAL EXPERIENCE

full stack developer
CAT (Creative Advertising Thinking)

- Developed and deployed interactive E-Detailing presentations, E-mailers, and LaunchPad materials for pharmaceutical clients, handling both backend (PHP & MySQL) and frontend (Vue.js, HTML, CSS, JS) development. Collaborated with design teams to deliver pixel-perfect, responsive, and performance-optimized solutions.

EDUCATION

Full Stack Development 04/2025 – 04/2026
Route academy

B.Sc. in Electronics and Communications Engineering 2018
Menouf

TECHNICAL SKILLS

Backend
php , mysql , laravel

Frontend
HTML5, CSS3, Bootstrap, Tailwind, SASS, JavaScript (ES6+), TypeScript, Vue.js

DESIGN TOOLS
Photoshop, InDesign, PowerPoint, Illustrator, Acrobat Pdf, Figma.

PROJECTS

Library-Laravel 04/2026 – 04/2026
A Laravel CRUD application for managing books and categories using Eloquent relationships, validation, and pagination. Built with MVC architecture, OOP principles, and a responsive Bootstrap UI.

Online Shop System | PHP + MySQL 03/2026 – 03/2026
Developed a full-featured e-commerce system using native PHP with OOP and MySQL, implementing full CRUD operations, server-side validation, and a clean, MVC-inspired code structure. Focused on backend architecture, object-oriented principles (Encapsulation, Abstraction, Separation of Concerns), and maintainable, scalable code.

Taskify | PHP + MySQL 02/2026 – 02/2026

Developed a Task Management System from scratch using pure PHP and MySQL, focusing on backend logic and database design. Implemented user authentication, CRUD operations for tasks, task status tracking, and time tracking, with a clean, organized code structure and responsive UI. Gained hands-on experience in PHP logic, database handling, and basic security.

ToDo List | PHP Native 02/2026 – 02/2026

Developed a full-featured ToDo List application using pure PHP with OOP and PDO for secure database operations. Implemented all CRUD operations, user validation, and data processing natively, focusing on clean, reusable code and protection against SQL injection. Technologies: PHP Native, OOP, PDO, CRUD, Data Validation.

Blog System 01/2026 – 01/2026

PHP + MySQL Developed a full-featured blog with user authentication, role-based access, multilingual support, CRUD operations, image uploads, pagination, and an admin dashboard. Technologies: PHP, MySQL, HTML, CSS, JavaScript.

E-commerce Web App (Vue.js) 06/2025 – 07/2025

A responsive online store with cart, checkout, API integration, and user authentication. Developed with Vue.js, Vue Router, and Pinia/Vuex, featuring product listing, filters, dynamic cart, and responsive UI using TailwindCSS.

GameOver Web App (Pure JavaScript) 05/2025 – 06/2025

A fully interactive JS application with authentication, API integration, and dynamic UI. Built with pure JavaScript, including Login/Register, dynamic DOM rendering, routing-like navigation, search, and category filtering.

Yummy Web App (HTML / JavaScript / jQuery) 04/2025 – 05/2025

Meals & Recipes app with login system, API integration, and dynamic UI. Built with HTML, CSS, JS, and jQuery, featuring form validation, search, filters, dynamic rendering, and responsive layout.

Mini E-commerce App (CRUD System) 03/2025 – 04/2025

Product management app with full CRUD operations and Regex validation. Implemented add/edit/delete products, live search and filtering, responsive UI, and data persistence using LocalStorage/API.

Personal Portfolio Website 02/2025 – 03/2025

A responsive portfolio showcasing skills, projects, and contact info. Built with HTML, CSS, JS, featuring interactive layout, smooth scrolling, project showcase with live demos, and fully responsive design.

SOFT SKILLS

- Leadership & Team Management
- Time Management
- abilty to adapt with different characters
- Communication & Collaboration
- Sales & Negotiation
- Ability to learn and work under pressure
